

# Ego electric

Electric design radiator

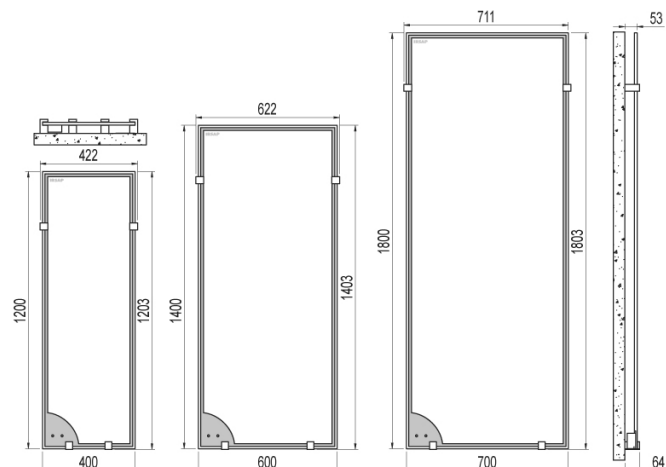

EGO innovative electric radiator made of transparent or mirror finish glass. Thanks to its capacitive keyboard, all the functions can be activated just by touching the surface.

Technical features:

- electric glass plate
- developed electric powers from 500 to 1200 Watt
- electronic control with a capacitive keyboard
- class II insulation, IP 44

Standard supply:

- kit for wall connection
- electronic control with a capacitive keyboard
